“Vignoble des Verdots is fully committed to an innovative approach to environmentally responsible and sustainable viticulture. The estate works to serve its terroir, soil and nature, while aiming to achieve carbon neutrality before 2030. We cultivate tradition and what is most precious in it, while breathing new life into it.”

#### A HISTORY

This range is of great elegance and will accompany you in your beautiful moments of conviviality. The red, the dry white or the Monbazillac are all partly matured in barrels, which gives them the right balance between finesse and power. They can be enjoyed now or kept for a few years.

This wine is made from a blend of four grape varieties: 61% Sauvignon Blanc, 13% Sauvignon Gris, 17% Semillon and 9% Muscadelle.

#### TASTING NOTE

A brilliant and limpid pale gold colour. A charming nose with a beautiful aromatic expression with notes of magnolia flowers, white flesh fruits like peach and citrus fruits such as grapefruit.

An expressive mouth where the Sauvignon grapes bring freshness and elegance. The Muscadelle and Semillon provide roundness, balance and aromatic complexity.

Whether you are a novice, an amateur or an epicurean, it has everything to please you!

#### FOOD AND WINE PAIRING

This dry white wine will sublimate a fine piece of veal, an Italian pasta dish with seafood or a platter of hard cheeses (such as Abondance or Comté AOP French cheeses).
